

BIOFLOAT™ 96-WELL PLATE & FLEX COATING SOLUTION

Perfect spheroids
for your cell cultures

RAPID

Formation
of spheroids

ROUND

Uniform spheroids
for perfect data
consistency

RELIABLE

3D culture with
challenging cell
lines

- ✓ Highly-defined, cell and protein-repelling surface
- ✓ Fully inert and consistent quality
- ✓ Faster generation of spheroids
- ✓ Reproducible data for all kinds of cell lines
- ✓ Elimination of cell satellites and irregular aggregates
- ✓ Highly scratch resistant and robust surface treatment
- ✓ Coating solution applicable to a broad range of material substrates
- ✓ No alteration of the geometry of the device using the coating solution
